

"No Ice Today"

"No ice today," is the morning greeting to the iceman lots of mornings when he knocks on the kitchen door of the home where the housewife has been so wise as to purchase a Leonard Refrigerator.

Economy of ice is a wonderful help these hot, sultry days. You can always feel perfectly secure—you know that your milk and cream will be fresh and sweet and everything cold and refreshing.

Now, here's the great help that a Leonard gives to the housewife—by keeping the "left-overs" from day to day, it helps her solve that heart-breaking problem of high food costs. Try it—you can prove it with a few weeks' use of a Leonard.

To answer that question you've been asking in your mind, "A Leonard is not expensive." It costs even less than the ordinary kinds, even though it has the wonderful seamless porcelain lining that is "as easily cleaned as a china dish."

Come down to Mayer's Lifetime Furniture Store tomorrow and see the big Leonard at \$59.75, the smaller one at \$33.75, and the small ones from \$12.00 up.

CHINESE DEPOSE MILITARIST CHIEF

Reform Element Gains New
Success, But Uprising of
Troops Is Feared.

PEKING, July 5 (by the Associated Press).—Militarist elements received another defeat last night, when Gen. Hsu Chu-Cheng, resident commissioner of Inner Mongolia and commander of the northwestern frontier, was relieved of those posts.

The mandate by which he was relieved from his duties announced he had been made a retired generalissimo and will receive a pension of 1,000 taels monthly, but this is considered here as a step intended only to "save the face" of the general.

This dismissal demonstrates the strength of the reform party headed by Gen. Chang Esho-Ling and Wu Pei-fa. It is believed here, and the Anfu group, of which Hsu Chu-Cheng was a leader, which suffered a severe reverse on June 30, when Chow-Sho was selected as premier, will be still further ousted from power by the announced intention of the government to deprive it of the ministry of communications in the new cabinet.

The dramatic dismissal of Hsu Chu-Cheng startled this city and gave rise to apprehension of an uprising by troops under his command, who are still in Peking. Many people have hurriedly deposited their valuables in foreign banks, and there is a feeling akin to panic. Officials, however, are not perturbed by the situation.

PALACE.

"The Flapper." Olive Thomas' latest picture, which is being shown at Loew's Palace Theater this week, is a study in precocious girlhood, its heroine being a carefully reared young woman who pieces for the wickedness of the world, becomes involved with a band of crooks who make her their fence so to speak, trusting their booty to her care in the hope of recovering it later and of averting suspicion because of her natural innocence. It is an interesting if improbable compound of screen production and yet entertaining withal.

ADDS TO CABINET PAY.

PARIS, July 5.—The chamber of deputies today voted an additional indemnity of 20,000 francs a year for cabinet ministers and 15,000 francs for secretaries of state in recognition of the increased cost of living.

The vote, which was taken by the raising of hands, was almost unanimous.

Cave-In Buries Twenty.

MEXICO CITY, July 4.—About twenty persons were buried alive when dugouts at San Pedro de Los Pinos, near here, caved in. Ten bodies have been recovered. The victims were members of the 3d Cavalry Regiment and their families.

A French chemist once collected enough iron from human blood to make a finger ring, which he wore as a talisman.
